

Programme

Side-event of the Coordination Office for Wind Energy

Warsaw April 21, 2010

EWEC, Hall 4 Room D

Latest developments on the French Wind Power Market New rules, new challenges

Presentations in French will be simultaneously translated into English

- 16:00** **Greeting**
Laure Kaelble, Coordination Office for Wind Energy
- 16:05 – 16:30** **French National Action Plan: the wind energy challenge**
- Will the "Grenelle I" Act, the multiannual investments programming (PPI) and the upcoming "Grenelle II" Act be sufficient to reach the French 23% target for renewable?
 - What economic and legal implements should be used for developing the French wind power market?
- Mr. Fabrice Cassin**, Vice-President of the French Wind Energy Association (FEE)
- 16:30 – 17:00** **The upcoming enforcement of the dangerous installations rules (ICPE) to wind power plants**
- Declaration, registration or authorization: which system will apply to wind projects?
 - How will the new regulation combine with other authorizations? How will it influence the development and operation of wind power projects?
- Mrs. Véronique Fröding**, Lawyer, Gide Loyrette Nouel
- 17:00 – 17:30** **New tax system for wind energy projects and local acceptance**
- How does the new business tax reform modify the operating companies' charges and the resources of local authorities?
 - Will the new taxes – CET and IFER – be sufficient to encourage local authorities to support wind power projects?
- Mr. Jean-Francois Petit**, EOLE-RES Development Director
